

County of Orange

Orange County Science and Engineering Week

By the authority of the Orange County Board of Supervisors, the following resolution is hereby issued:

WHEREAS, the fields of Science, Technology, Engineering, Art, and Mathematics are of growing importance and will prove crucial to the success of the next generation; and

WHEREAS, by inspiring and encouraging young minds to develop a growing interest in the sciences, we provide opportunities for the youth of Orange County to excel in a new age driven by innovation and problem solving; and

WHEREAS, allowing future generations to flourish in their love of science and engineering is in our long-term interest both economically and socially, as it will attract new demographics and business to Orange County; and

WHEREAS, by enhancing our community through the spread of scientific knowledge and developing a more educated workforce, we ensure a prosperous future for Orange County's youth; and

WHEREAS, during the Orange County Science and Engineering Fair and its associated events students will showcase their talents through science activities and engineering competitions, and thus further the goals of spreading the innovative spirit among the youth of Orange County; now, therefore be it

RESOLVED, that the Orange County Board of Supervisors does hereby declare the week of April 16th- 23rd, 2017, as Orange County Science and Engineering Week, encourages the students of Orange County to further their understanding of the world around them in relation to the sciences to better prepare them for the future, as well as provide further opportunities and experience for them to flourish and improve our community by creating a more educational and innovative environment.
